INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Miami Arts, Inc. (Miami Arts Charter School)
Miami, Florida

Opinion

We have audited the accompanying financial statements of the governmental activities, and each major fund and the aggregate remaining fund information of Miami Arts, Inc. (Miami Arts Charter School) (the "School"), as of, and for the year ended June 30, 2025, and the related notes to the financial statements which collectively comprises the School's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Miami Arts, Inc. (Miami Arts Charter School) as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Miami Arts, Inc. (Miami Arts Charter School) and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Emphasis of a Matter – Correction of Errors

As described in Note 10 to the financial statements, the School restated prior period's financial statements for correction of errors. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 through 9 and 30 to 31 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 15, 2025 on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Management's Discussion and Analysis
Miami Arts, Inc. (Miami Arts Charter School)
June 30, 2025

The corporate officers of Miami Arts, Inc. have prepared this narrative overview and analysis of the School's financial activities for the fiscal year ended June 30, 2025.

Financial Highlights

1. The net position of the School at June 30, 2025 was \$3,186,851.
2. At year-end, the School had current assets on hand of \$6,472,517.
3. The School had an increase in net position of \$1,331,537 for the year ended June 30, 2025.
4. The unassigned fund balance at year end was \$5,495,038.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The School's financial statements for the year ended June 30, 2025 are presented in accordance with GASB Codification Section 2200. The financial statements have three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the School's assets, deferred outflows of resources, liabilities and deferred inflows of resources. The difference between the four is reported as *net position*. Over time increases or decreases in net position may serve as an indicator of whether the financial position of the School is improving or deteriorating.

The *Statement of Activities* presents information on how the School's net position changed during the fiscal year. All changes in net position are reported when the underlying event occurs without regard to the timing of related cash flows. Accordingly, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements can be found on pages 10 - 11 of this report.

Fund Financial Statements

A "fund" is a collection of related accounts grouped to maintain control over resources that have been segregated for specific activities, projects, or objectives. The School like other state and local governments uses fund accounting to ensure and report compliance with finance-related legal requirements.

Governmental Funds

All of the funds of the School are governmental funds. *Government Funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Government Fund financial statements, however, focus on *near-term* inflows and outflows of spendable resources, as well as on the balances of spendable resources which are available at the end of the fiscal year. Such information may be used to evaluate a government's requirements for near-term financing. The Board of the School adopts an annual appropriated budget for its major governmental funds. A budgetary comparison statement has been provided for the major governmental funds to demonstrate compliance with the School's budget. The basic governmental fund financial statements can be found on pages 12 – 15 of this report.

Fiduciary Fund

The Fiduciary fund statement provides information about the financial relationship in which the School acts solely as a custodian for the benefit of other such as student activities. The School is responsible for ensuring that assets are used only for the intended purposes. The School excludes these activities from the Statement of Net Position because it cannot use these funds to finance its operations. The Fiduciary fund statement and change in net position can be found on page 16 – 17 of this report.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18 – 29 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a charter school's financial position. In the case of the School, net position was \$3,186,851 at the close of the fiscal year. A summary of the School's net position as of June 30, 2025 and 2024 is as follows:

	(As restated)	
	2025	2024

The School's revenues and expenses decreased by \$2,686,504 and \$2,510,928, respectively. The School had an increase in its net position of \$1,331,537 for the year.

School Location

The School leases its facilities at 95 NW 23rd Street, Miami, FL 33127.

Capital Improvement Requirements

The School maintains a continuous capital improvements program to enhance facilities and update fixtures and equipment as required.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUND

As noted earlier, the School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the School's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the School's financing requirements. In particular, the *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Most of the School's operations are funded in the General Fund. The majority of the General Fund revenues are distributed to the School by the District through the Florida Education Finance Program (FEFP), which uses formulas to distribute state funds and an amount of local property taxes (i.e., required local effort) established each year by the Florida Legislature.

At the end of the fiscal year, the School's governmental general fund reported ending fund balance of \$5,495,038. The fund balance unassigned and available for spending at the School's discretion is \$5,635,653.

The Debt Service Fund was created to account for resources accumulated and payments made for the principal and interest on long term debt of the School. At the end of the current fiscal year, the fund balance totaled \$1,502,037, all of which was restricted to debt service.

Special Revenue Fund accounts for specific revenue, such as federal programs and grants that are legally restricted to expenditures for particular purposes. At the end of the current fiscal year, the fund had no ending balance.

Capital Assets

The School's investment in capital assets as of June 30, 2025 amounts to \$24,937,970 (net of accumulated depreciation). This investment in capital assets includes building and improvements, furniture, fixtures and computer equipment. As of June 30, 2025, the School had long term debt totaling \$28,888,809 relating to capital assets.

Requests for Information

This financial report is intended to provide a general overview of the finances of the Charter School. Requests for additional information may be addressed to the School's administrative offices at Miami Arts, Inc. (Miami Arts Charter School), 95 NW 23rd Street, Miami, Florida 33127.

Governmental Fund Budget Analysis and Highlights

Prior to the start of the School's fiscal year, the Board of the Charter School adopted an annual budget. A budgetary comparison statement has been provided for total governmental funds (general fund, debt service fund, special revenue fund and capital projects funds) to demonstrate compliance with the School's budget.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance
of Governmental Funds to the Statement of Activities

For the year ended June 30, 2025

Net Change in Fund Balance - Governmental Funds	\$ 3,820,777
---	--------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital outlay	781,480	
Depreciation expense	<u>(1,074,446)</u>	(292,966)

The proceeds from debt issuance provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Principal payments on long-term liabilities	<u>417,448</u>	417,448
---	----------------	---------

Revenues are recognized using the full accrual basis of accounting in the government-wide statements. However, revenues are recognized when they are measurable and available in the governmental funds. These revenues did not meet the recognition criteria during the prior year and, therefore, were not reported in the governmental funds.

Note 1 – Summary of Significant Accounting Policies

Organization

Miami Arts, Inc., d/b/a Miami Arts Charter School (the "School"), is a not-for-profit corporation organized pursuant to Chapter 617, and Section 1002.33, Florida Statutes. The governing body of the School is the board of directors of the not-for-profit corporation, which is composed of three members. The School is funded by and operates under a charter granted by the sponsoring district, the District School Board of Miami Dade County (the "District"). The current charter expires on June 30, 2039 and is renewable by mutual written agreement between the School and the District. During the term of the charter, the District may terminate the charter if good cause is shown. The School's campus and administrative offices are located in Miami, Florida for students from grades six to twelve. These financial statements are for the year ended June 30, 2025, when 951 students were enrolled for the school year.

Basis of presentation and Reporting Entity

The School's accounting policies conform to accounting principles generally accepted in the United States as applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Accordingly, the basic financial statements include both the government wide and fund financial statements.

Miami Arts Wynwood, LLC ("Wynwood") was organized under the laws of the State of Florida, the sole member of which is the School. Wynwood is a legally separate entity established for the sole purpose of serving as the lessor to the School pursuant to the Series 2014A and 2014B Bond issue and Series 2024A and 2024B Bonds issue (see Note 6 – Long Term Debt). Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by Statement No. 61, when a government owns a majority of the voting stock of a for-profit corporation, the government's intent for owning the stock should determine whether the corporation is presented as a component unit or an investment of the primary government. The sole intent of Wynwood was to acquire the site and new facilities and lease the facilities to the School and therefore, it is included as a blended component unit of the School. Wynwood includes the Debt Service Fund and the Capital Projects Fund. Separate financial statements are not required or reported for Wynwood.

Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report all non-fiduciary activities of the School and its component units. Any internal interfund activity has been eliminated from these financial statements. Both statements report only governmental activities as the School does not engage in any business type activities. These statements also do not include Fiduciary funds.

Note 1 – Summary of Significant Accounting Policies (continued)

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include capital grants specific to capital outlay. In addition, revenues not classified as program revenues are shown as general revenues, which include Florida Education Finance Program (FEFP) revenues and state and local sources.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School does not have any items that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The School does not have any items that qualify for reporting in this category.

Fund Financial Statements

Fund financial statements are provided for governmental funds and Fiduciary funds. The operations of the funds are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, equity, revenues and expenditures. The school reports the following major governmental funds:

General Fund - is the School's primary operating fund. It accounts for all financial resources of the school, except those required to be accounted for in another fund.

Special Revenue Fund – accounts for specific revenues, such as federal funding that are legally restricted to expenditures for particular purposes.

Debt Service Fund - accounts for the resources accumulated and payments made for principal and interest on long-term debt of the School.

Additionally, the school reports separately the following Fiduciary fund types

Custodial Fund – The School has adopted Governmental Accounting Standards Board (GASB) Statement No. 84 – *Fiduciary Activity*. Accordingly, the School's internal fund accounts are used to administer monies collected at the school in connection with school, student activities, class, and club activities.

Note 1 – Summary of Significant Accounting Policies (continued)

Measurement Focus and Basis of Accounting

The financial statements of the School are prepared in accordance with Generally Accepted Accounting Principles (GAAP). The School's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) *Codification of Accounting and Financial Reporting Guidance*.

The government-wide statements report uses the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The School recognizes assets of non-exchange transactions in the period when the underlying transaction occurs, when an enforceable legal claim has arisen, or when all eligibility requirements are met. Revenues are recognized, on the modified accrual basis, when they are measurable and available. Non-exchange transactions occur when the school provides (or receives) value to (from) another party without receiving (or giving) equal or nearly equal value in return. Most donations are examples of non-exchange transactions. Revenues from grants and donations are recognized on the accrual basis, in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. "Measurable" means the amount of the transaction can be determined. "Available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Florida Education Finance Program (FEFP) revenues are recognized when received. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Charges for services and fees are recognized when cash is collected as amounts are not measurable. When grant terms provide that the expenditure of funds is the prime factor for determining eligibility for federal, state, and other grant funds, revenue is recognized at the time the expenditure is made. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt and compensated absences, which are reported as expenditures when due. General capital asset acquisitions are reported as expenditures in governmental funds. Fiduciary fund assets and liabilities are accounted for on the accrual basis of accounting. The Fiduciary Funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Budgets and Budgetary Accounting

In compliance with Florida Statutes, the Board of Directors adopts an annual budget using the modified accrual basis of accounting. During the fiscal year, expenditures were controlled at the object level (e.g. salaries and benefits, purchased services, materials and supplies and capital outlay) within each activity (e.g. instruction, pupil personnel services and school administration). Revisions to the annual budget are approved by the Board.

Note 1 – Summary of Significant Accounting Policies (continued)

Inter-fund Transfers

Interfund receivables/payables are short-term balances that represent reimbursements between funds for payments made by one fund on behalf of another fund.

Cash and Deposits

All deposits are held in major banks and high grade investments. Cash and deposits include all highly liquid investments with a maturity of three months or less. See Note 2.

Due from Other Governments or Agencies

Amounts due to the School by other governments or agencies are for grants or programs under which the services have been provided by the School. No allowance for uncollectible accounts is deemed necessary.

Long –Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond payable is reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expense in the period incurred. In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources.

Capital Assets

The School's property, plant and equipment with useful lives of more than one year are stated at historical cost and comprehensively reported in the statement of net position in the government-wide financial statements. Donated capital assets are recorded at their estimated fair market value on the date donated. The School generally capitalizes assets with cost of \$1,000 or more. Building improvements, additions and other capital outlays that significantly extend the useful life of an asset are capitalized. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Estimated useful lives, in years, for depreciable assets are as follows:

Furniture, Fixtures and Equipment	5-10 Years
Computer, Software, and Internet Technology	3-5 Years
Building	40 Years

Note 1 – Summary of Significant Accounting Policies (continued)

Revenue Sources

Revenues for operations are received primarily from the State through the District pursuant to the funding provisions included in the School's charter. In accordance with the funding provisions of the charter and Section 1002.33, Florida Statutes, the School will report the number of full-time equivalent (FTE) students and related data to the District. Under the provisions of Section 1011.62, Florida Statutes, the District reports the number of the full-time equivalent (FTE) students and related data to the Florida Department of Education (FDOE) for funding through the FEFP. Funding for the School is adjusted during the year to reflect the revised calculations by the FDOE under the FEFP and the actual weighted full-time equivalent students reported by the School during the designated full-time equivalent student survey periods. After review and verification of FTE reports and supporting documentation, the FDOE may adjust subsequent fiscal period allocations of FEFP funding for prior year errors disclosed by its review as well as to prevent statewide allocations from exceeding the amount authorized by the Legislature. Normally, such adjustments are treated as reductions of revenue in the year the adjustment is made. In addition, the school receives an annual allocation of charter school capital outlay funds for leasing of school facilities. In addition, the School receives a portion of the local operating millage revenues levied by the District (Secure Our Future Referendum).

The School receives state funds through the District under charter school capital outlay funding pursuant to Section 1013.62, Florida Statutes. Funds are based on a capital outlay plan submitted to the District. In addition, the School may receive a portion of the local capital improvement revenues levied by the District.

Finally, the School may also receive Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred. Any excess amounts are recorded as deferred revenues until expended. Additionally, other revenues may be derived from various fundraising activities and certain other programs.

Compensated Absences

GASB Statement No. 101, *Compensated Absences*, requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. GASB Statement No. 101 establishes guidance for measuring a liability that has not been used, generally using an employee's pay rate as of the date of the financial statements.

Note 1 – Summary of Significant Accounting Policies (continued)

The School grants a specific number of sick and personal days. In the event that available time is not used by the end of the benefit year, employees will not be able to “rollover” unused days for use in future years. There is no termination payment for accumulated unused sick days. Accordingly, these financial statements do not include an accrual for sick days available to be used in future benefits years.

Income Taxes

The School qualifies as a tax-exempt organization under Internal Revenue Code Section 501(c)(3), and is, therefore, exempt from income tax. Accordingly, no tax provision has been made in the accompanying financial statements.

Assets Restricted by Bond

Restricted assets include cash balances that are related to amounts that the School is required to segregate in connection with the issuance of bonds, including insurance deductible and repair and replacement reserve requirements. The indenture of Trust requires the establishment of Funds for the bonds and accounts within such funds, all of which shall be special trust funds and accounts held by the Trustee. At June 30, 2025, composition of restricted account is as follows:

Restricted bond proceeds:

Insurance Deductible Reserve - Series 2024A and 2024B	\$ 1,002,032
Repair and Replacement Reserve - Series 2024A and 2024B	<u>500,005</u>
	<u>\$ 1,502,037</u>

Net Position and Fund Balance Classifications

Government-wide financial statements

Equity is classified as net position and displayed in three (3) components:

- Net investment in capital assets - consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any borrowings that are attributable to the acquisition or improvement of those assets.
- Restricted net position - consists of net position with constraints placed on their use either by external groups such as creditors, grantors, contributors or laws or regulations of other governments.
- Unrestricted net position - all other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for a specific purpose, the School's policy to use restricted resources first, until exhausted, before using unrestricted resources.

Note 1 – Summary of Significant Accounting Policies (continued)

Fund financial statements

Under GASB Codification Section 1800.142, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB requires the fund balance amounts to be properly reported within one of the fund balance categories listed below:

- a) Nonspendable - includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Consists of fund balance associated with deposits and prepaid expenses.
- b) Restricted - fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. Restricted fund balance of the School relates to the bond issued.
- c) Committed - fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School's Board of Directors. There are no committed fund balances at year end.
- d) Assigned - fund balance classification is intended to be used by the School's management for specific purposes but do not meet the criteria to be classified as restricted or committed. There are no assigned fund balances at year end.
- e) Unassigned - portion of the fund balance that has not been restricted, committed or assigned. This is the residual classification for the School's general fund.

Committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

New Accounting Standard Adopted

Effective July 1, 2024, the School adopted Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. This is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The adoption had no material effect on the School's 2025 financial statements.

Note 1 – Summary of Significant Accounting Policies (continued)

Effective July 1, 2024, the School adopted Governmental Accounting Standards Board (GASB) Statement No. 102, *Certain Risk Disclosures*. The objective of this statement is to provide financial statement users with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The adoption of this statement did not have a material impact on the School's financial statements. This statement was applied prospectively.

Pronouncements Issued But Not Yet Effective

The GASB issued GASB Statement No. 103, *Financial Reporting Model Improvements* and GASB Statement No. 104, *Disclosure of Certain Capital Assets*. The requirements of these Statements are effective for reporting periods beginning after June 15, 2025. The School is currently evaluating the effect that implementation of the new standards will have on its financial statements. The School is currently evaluating the effect that implementation of the new standards will have on its financial statements.

Subsequent Events

In accordance with GASB Codification Section 2250.106, the School has evaluated subsequent events and transactions for potential recognition or disclosure through September 15, 2025 which is the date the financial statements were available to be issued.

Note 2 – Cash and Cash Equivalents

Deposits

Operating cash is held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and/or collateral with securities held in Florida's multiple financial institution collateral pool required by Sections 280.07 and 280.08, Florida Statutes. Any other cash deposits are held at FDIC-insured institutions.

Credit Risk

Custodial credit risk is the risk that in the event of a failure of a depository financial institution or counterparty that is in possession of investment or collateral securities, the School will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

Note 3 – Due from Other Agencies

The following is due from other agencies as of June 30, 2025:

Depreciation expense for the year ended June 30, 2025, amounted to \$1,074,446.

Note 5 – Transactions with Related Parties

The School entered into a management agreement with a charter management company, New Way Schools, Inc. (“NWS”) to provide management and administrative services to the School. The School’s Founder and Chief Education Administrator has an ownership interest in NWS.

On March 19, 2024, the agreement was amended and changed the term and the amount of compensation as follows: the term of the agreement shall continue through June 30, 2025, and thereafter shall renew automatically for successive one-year terms, unless earlier terminated by either party in accordance with the agreement, and commencing July 1, 2024, the School shall pay a management fee of \$1,000 per student Full Time Equivalent and as negotiated annually thereafter. In addition, the management fee is subordinated under the terms of the School lease, loan and bond agreements. The School’s management fee for the year ended June 30, 2025 was \$966,667.

Note 6 – Long Term Debt

Revenue Bond

On March 28, 2024, Capital Trust Authority issued the Educational Facilities Revenue Refunding Bonds (Miami Arts Charter School Project) Tax-Exempt Series 2024A Bonds (the “Series 2024A Bonds”) in the original principal amount of \$20,208,713 and Education Facilities Revenue Refunding Bonds (Miami Arts Charter School Project) Federally Taxable Series 2024B Bonds (the “Series 2024B Bonds,” and together with the Series 2024A Bonds, the “Bonds”) in the original principal amount up to of \$9,647,380, for the purpose of (a) refunding and defeating the Refunded Bonds; (b) funding an Insurance Deductible Account; (c) funding a Repair and Replacement Reserve Account; and (d) paying certain costs of issuance of the Bonds. During the fiscal year, the School drew a total of \$500,000 from the bonds proceeds to establish a Repairs and Replacement Account. The Bonds are subject to an interest rate of 4.82% for the Series 2024A Bonds and 6.10% for the Series 2024B Bonds.

The Bonds are payable in monthly installments of accrued interest and principal. All remaining principal plus all unpaid accrued interest shall be due and payable in full on the Maturity Date. The bonds contain restrictive covenants related to debt service coverage ratio, days cash on hands requirements, student enrollment and reporting requirements. However, the School's revenues are pledged under this bond issuance up to the remaining balance as of June 30, 2025. The revenues pledged during the school year ended June 30, 2025, exceeded the required principal and interest for that period. In the event of default, the maturity date can be accelerated and/or the underlying collateral may be subject to foreclosure.

Interest expense for the year ended June 30, 2025 was \$1,540,807.

Revenue bond debt service requirements to maturity are as follows:

Year				
Ending June 30,	Principal	Interest	Total	
2026	\$ 439,693	\$ 1,518,562	\$ 1,958,255	
2027	463,265	1,494,990	1,958,255	
2028	484,049	1,474,207	1,958,256	
2029	514,096	1,444,160	1,958,256	
2030	541,710	1,416,546	1,958,256

	<u>\$ 28,888,809</u>	<u>\$ 12,498,186</u>	<u>\$ 41,386,995</u>	

Long term debt activity for the year ended June 30, 2025 was as follows:

Governmental activities:	Beginning Balance (07/01/2024)	Advances	(Payments)	Amortization	Ending Balance (06/30/2025)	Due within One Year
Bond payable	\$ 29,306,257	\$ -	\$ (417,448)	\$ -	\$ 28,888,809	\$ 439,693
	<u>\$ 29,306,257</u>	<u>\$ -</u>	<u>\$ (417,448)</u>	<u>\$ -</u>	<u>\$ 28,888,809</u>	<u>\$ 439,693</u>

Note 7 – Contingencies and Concentrations

The School receives the majority of its funding from the District under the Florida Education Finance Program (FEFP), which is based in part on a computation of the number of full-time equivalent (FTE) students attending different instructional programs. The accuracy of FTE student data submitted by individual schools and used in the FEFP computations is subject to audit by the state and, if found to be in error, could result in refunds to the state or in decreases to future funding allocations.

Additionally, the School receives various forms of federal, state and local funding which are subject to financial and compliance audits. It is the opinion of management that the amount of funding, if any, which may be remitted back to the state due to errors in the FTE student data or the amount of grant expenditures which may be disallowed by grantor agencies would not be material to the financial position of the School.

Pursuant to the Charter School contract with the School District, the District withholds an administrative fee of 2% of the qualifying revenues of the School. For the year ended June 30, 2025, administrative fees withheld by the School District totaled \$38,960.

On November 6, 2018, and November 8, 2022, the voters of Miami-Dade approved and renewed, respectively, the Secure Our Future Referendum to raise/maintain teacher compensation and improve school safety and security. The Miami-Dade County School District shares a portion with charter schools. The current renewal is set to expire on June 30, 2027. For the year ended June 30, 2025, the School's referendum revenues were approximately \$2,045,000 or 15% of total revenues.

Note 8 – Inter-fund Transfers

Interfund transfers in governmental funds as of June 30, 2025 consist of the following:

	General Fund	Debt Service Fund	Special Revenue Fund	Capital Projects Fund (Non-Major)
Transfer from capital outlay and general fund for debt service	\$ (1,402,782)	\$ 2,456,903	\$ -	\$ (1,054,121)
Reimburse general fund for prior period's federal expenditures	1,503,039	-	(1,503,039)	-
Total Transfers, net	<u>\$ 100,257</u>	<u>\$ 2,456,903</u>	<u>\$ (1,503,039)</u>	<u>\$ (1,054,121)</u>

Due from / (Due to) balances as of June 30, 2025 consist of the following:

Due to General Fund from Capital Projects Fund for capital outlay	\$ 42,917	\$ -	\$ -	\$ (42,917)
Due to General Fund from Special Revenue Fund for Federal Grants	5,791	-	(5,791)	-
Due to Debt Service Fund from General Fund from	(127,459)	127,459	-	-
Total Due from/(Due to)	<u>\$ (78,751)</u>	<u>\$ 127,459</u>	<u>\$ (5,791)</u>	<u>\$ (42,917)</u>

Note 9 – Risk Management

The School is exposed to various risks of loss related to torts, thefts of, damage to and destruction of assets, errors and omissions and natural disasters for which the School carries commercial insurance. Settlement amounts have not exceeded insurance coverage in any of the past three fiscal years. In addition, there were no reductions in insurance coverage from those in the prior year.

Note 10 – Restatement of Beginning Balances

A prior period adjustment in net position was recorded during the current year to correct the classification of bond issuance costs. In prior years, these costs were reported as a contra-liability in the financial statements. Consistent with the applicable accounting guidance, these costs have now been recognized as an expense in the period incurred. Additionally, the beginning fund balance of the debt service fund has been restated to correct an error in the prior year related to the overstatement of restricted cash and the corresponding liability.

The beginning net position and fund balance have been restated, as follows:

	Fiscal Year June 30, 2024 (Original)	Correction of error	Fiscal Year June 30, 2024 (Restated)
Net position (deficit), beginning	\$ 348,201		\$ 348,201
Change in net position	1,924,529	\$ (417,416)	1,507,113
Net position (deficit), ending	<u>\$ 2,272,730</u>	<u>\$ (417,416)</u>	<u>\$ 1,855,314</u>
Fund balance (deficit) at beginning	\$ 2,824,200		\$ 2,824,200
Change in debt service fund balance	(1,323,556)	\$ (500,000)	(1,823,556)
Fund balance (deficit) at the end of year	<u>\$ 1,500,644</u>	<u>\$ (500,000)</u>	<u>\$ 1,000,644</u>

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Miami Arts, Inc. (Miami Arts Charter School)
Miami, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Miami Arts, Inc. (Miami Arts Charter School) (the "School") as of, and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School's basic financial statements and have issued our report thereon dated September 15, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting as a basis to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We issued a separate management letter dated September 15, 2025 pursuant to Chapter 10.850, Rules of the Auditor General.

Purpose of this report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
